Wire Lanyard With Locking Screwgate Carabiners

SDLANWIRE10

Heavy Duty Wire Lanyard With Locking Screwgate Carabiners

SDWIRE80

- **Pin Locking Mechanism:** Utilizes Stopdrop Tooling's pin locking mechanism which requires a Pin Removal Tool to prevent accidental disengagement.
- **Permanent Attachment Points:** All 3/4" socketry tools feature permanent shackle attachment points that allow for full tool functionality.
- **Metric or Imperial:** Each Kit comes with 22 Metric or Imperial sockets.
- **Engraving:** All tools come laser engraved with your choice of identifier, with up to 13 characters, for example: the rig name, team name or department as well as colour coded sleeving as standard.
- **Tool Control Foam:** Both kits feature double colour tool control foam, making it easy to manage your inventory. Lid foams can also be customised to suit your requirements.
- **Mobile Tool Box:** The tough black PELI tool box features wheels, handles and clip locks for easy transportation.
