# TORQUE WRENCHES 3/8" & 1/2" DRIVE FOR WORKING AT HEIGHT

Our 3/8" & 1/2" Drive Torque Wrenches for 'Working At Height' feature a pin locking system which provides socket retention for all sockets & extensions and can be released with our Pin Removal Tool for 'Working At Height'. Every torque wrench is supplied with a calibration certificate to satisfy the requirements of ISO 9000 and comes in a plastic storage case.

Featuring accuracy of +/-3% of reading, which exceeds all international standards for torque wrenches. The Dual Head features forward/reverse controls and the cross cut handle grip provides comfort and oil resistance. It has a primary scale of Ft/Lbs and a secondary scale of Nm.

All of our tools for 'Working At Height' feature dedicated attachment points ready for use with the appropriate lanyard. Colour coded sleeving and personalised engraving as standard.

### **SDNB60**

*Drive: 3/8"*  
*Capacity (Ft/Lb): 5-35*

*Capacity (Ft/Lb): 10-75*  
*Capacity (Nm): 20-100*  
*Length: 410mm / 16"*

### **SDNB330**

*Drive: 1/2"*  
*Capacity (Ft/Lb): 30-250*  
*Capacity (Nm): 50-330*  
*Length: 610mm / 24"*

## **PIN REMOVAL TOOL**

**SD501180**

Stopdrop Tooling Pin Removal Tool for use with Stopdrop Tooling 'Working At Height' socketry tools.

All Stopdrop Tooling sockets and socketry tools use the pin removal system to keep all sockets fully attached to the tool unless the Pin Removal Tool is used eliminating accidental removal.

The new improved Pin Removal Tool is made from a singular piece of stainless steel with a drilled lanyard attachment point and machine cut grip.
