The Stopdrop Tooling Pry Bars With Long Pointed End for 'Working At Height' are available in sizes 18", 24", 30" and 42" to suit smaller and larger tasks.

Each Pry Bar is stamped with Stopdrop branding, part number and metric/imperial lengths making it easier to identify the correct sized Pry Bar for the job. We can also laser engrave all of our tools with your choice of identifier and coloured sleeving.

The permanent shackle attachment points have been optimally positioned for safe tool functionality and allows lanyard movement only on one side of the tool.

PRY HEEL BARS

The Stopdrop Tooling Pry Heel Bars for 'Working At Height' are available in sizes 12", 16" and 20" to suit smaller and larger tasks. Each Pry Heel Bar is stamped with Stopdrop branding & part number making it easier to identify the correct sized Pry Heel Bar for the job. We can also laser engrave all of our tools with your choice of identifier and coloured sleeving.

The permanent swivel attachment points have been optimally positioned for safe tool functionality and allows full lanyard movement.
