## LIGHT TUBE HOLDER

### ABOUT

Our Light Tube Holder for 'Working At Height' SDBAGTC2 allows the user to safely and efficiently change fluorescent light bulbs at height. The light tube is made from water resistance material and features an adjustable carry strap and zip. It is also lightweight and maintains structure when not in use. The permanent attachment points on the holder also means that it can be attached to a nearby structure i.e. cherry picker.

### SPECIFICATIONS

The SDBAGTC2 is designed to carry six replacement light tubes, plus one cartridge for the initially removed light tube. There is a maximum light tube length of 48" and each light tube is securely enclosed in its own separate cylinder.
